

## COMPANY DESCRIPTION

**The Charging Station, LLC** (“TCS”) is a Wyoming company started to market, distribute and finance the most advanced Energy Medicine Chambers available today into the medical services marketplace.

This entirely new class of device is designed and built by TCS’s parent company **ARRC LED** in Lake Forest, CA.

ARRC LED, universally known as the ‘Star Trek’ of the Light Therapy Industry, prototypes, designs, builds and distributes first to market innovations.

## INVESTMENT OFFERING

- \$3mm 8.5% Convertible Notes with up to three-year term
- Converts to TCS Units at a 20% discount to fair market value
- Exit strategies include a sale, merger or IPO

## USE OF FUNDS

- Finance, Build and Distribute 85 devices into the medical and chiropractic market as stand alone clinics called TCS
- Sell, service, own and build \$35,000/mo Gross Revenues for each station
- Utilize Pre-planned EBITA of \$10,000/mo to create perpetual expansion to 1000 units.

## INTELLECTUAL PROPERTY

IP portfolio of trademarks and patent pending tech focused on an entirely new class of medical device stacking Energy, Frequency and Vibration.

## PROBLEM

Chronic conditions are responsible for over 93% of the US healthcare dollars spent on treatment. Inflammation and imbalance are root causes of disease and premature aging.

## SOLUTION

In general, the red light therapy bed industry has exploded as researchers have definitively shown that red light therapy has a pronounced therapeutic effect on inflammation, creating a cascade of cellular to systemic benefits. ARRC LED has expanded and broadened efficacies creating 4 entirely new classes of device that integrate Frequency Medicine into every device. ARRC systems scan the body and then augment with protocols that integrate personalized scanning with Energy Frequency and Vibration to optimize health, cognition, aesthetics & performance.

## TRACTION & MILESTONES

- Currently there are 100’s of the ARRC LED light beds in the market - by referral.
- ARRC is an R&D company shifting in 2024 to sales of its 4 unique offerings.
- Nearly half of the NFL, MLB, NBA, Hockey and collegiate teams own ARRC LED.
- Every branch of the US military, including US Special Forces Services and gov agencies have used ARRC LED since 2018.
- Armed Services SBIR grant application underway for manufacturing capacity for government orders
- ARRC LED has invested into over 20 prototypes since 2018 to develop this entirely new class of device.

## TARGET MARKETS

- Chiropractic, PT and Medical Doctors
- Professional & Collegiate Athletics
- Fitness Clubs & Gyms
- Military & Government Agency
- High Net Worth individuals and several world leaders

December 12, 2024
